

Dear Orion Client,

Thank you for using Orion Registrar for your ISO 9001:2008 and/or ISO 14001:2004. As you know the standards have been revised. Attached is the Orion guidance for the new 2015 revisions of the standards. The attached guidance in this email are:

- **ISO 9001:2015 and ISO 14001:2015 Roadmap**, this document provides guidance on how to upgrade to the new standards
+ [Click Here to Download](#)
- **Upgrade Audit Time Guidance**, this document provides guidance on the options to upgrade and additional audit required for specific scenarios.
+ [Click Here to Download](#)
- **Upgrade Questionnaire**, you complete this simple questionnaire so that the Orion Staff can properly schedule your upgrade audit activities.
+ [Click Here to Download](#)
- **ISO 9001:2015 and ISO 14001:2015 Transition Presentation**, this is an overview of the changes to the standards. We do plan in 2016 to perform live presentations.
+ [Click Here to Download](#)

Also we refer in the documents the statement “did you rewrite your management system documentation or did you just make changes to the management system.” What we meant by a rewrite of the documentation is that you rewrote the management system documentation to the new format of the standards. What we meant by make changes to the management system is that the new requirements were added to the documented management system but the documentation structure remained the same.

There will be a second email sent to you in the future containing the Footprints and the Upgrade Checklists.

If you have any questions, please contact us at response@orion4value.com

Sincerely,

Paul Burck
